

STRAIGHT BARREL RACE

1. There will be three 44 gallon drums in a straight row, distances as shown in diagram.
2. Course as shown in diagram. The rider enters through the Start/Finish posts and takes the drums as follows:

On the outward course, all three drums on a left hand turn.

On the return course, final two drums on a right hand turn.

3. This is a timed event. Competitors may have a flying start.
4. Elimination will result from:
 - Error of course not rectified
 - Touching a drum with the hand
 - Knock down of drum
